<p>Alcoa Foundation Conservation and Sustainability Fellowship</p>  	<p>Conservation and sustainability research projects, biodiversity in European development cooperation - areas key to the World Conservation Union's work</p>	<p>Institute for International Education, Alcoa Foundation, Grants for research projects</p>	<p>English</p>	<p>Fellowships and training programs for over 20,000 participants annually. Alcoa Foundation's Conservation and Sustainability Fellowship Program is a unique, international fellowship program created to advance the knowledge and support for exemplary work in the field of conservation and sustainability through fellowships to outstanding academics and practitioners from NGO. Preference is given to projects that are designed and carried out in countries where Alcoa has operations. The Alcoa Foundation supports each fellow with a substantial stipend plus funding for annual meetings of the fellows. Applications should be sent directly to IIE, not IUCN.</p>	<p>Yes- Nationals of SEE states</p>	<p>The new (third) round of Fellowships will be launched in Spring 2007</p>	<p>http://www.iucn.org/themes/aff/ http://www.iucn-ce.org/ http://www.iie.hu</p>
